

## WJZF Website Account - Confirmed?

Contributed by Administrator

When you sign up for an account on the WJZF.org web site, the system should send you a confirmation email detailing your access account, and asking you to click a link in the email that takes you back to the WJZF.org site to confirm your account. If you do not confirm your account, we do not get a message to enable your account and therefore we do not enable it. This is how we can be assured you are not being spammed or someone is not setting up an account in your name.

Occasionally, the confirmaiton email gets lost, or filtered in a spam filter, or you just forget to click the link to confirm your account. We periodically clear out unconfirmed accounts, as I did today. You can try registering again, or better yet, contact me (via the Contact Us page) or one of the WJZF staff so they can tell me of the issue. We'll get your account established pronto even if we have to do it manually!

Hope you all participate and enjoy keeping the airwaves free for all! Have happy and a safe Fourth of July, too!
