Jim Long Show - Veteran New England broadcaster Jim Long spins the hits of the 40's, 50's and early 60's, the memory making music, music that never loses its appeal!

True Blues Review - Host Mark Trufant plays a diversified mix of blues from the 30's right through today's blues favorites. True Blues Review, rocking your world with the best blues on the planet!

Love Radio - Wall-to-wall soft rock favorites and romantic pop music designed to set the mood for some really relaxing listening; music that blends with that special someone in your life.

Time Machine - The VERY BEST mix of oldies rock from the mid 60's to 1980 presented in very long music sweeps that are sure to bring back those great times and memories, songs that are still relevant today!

Radical Static - Dan Foley and Peter Dudar take a look at music of the 80's and 90's with their own, admittedly, warped minds....lots of humor, irreverence, and yet knowledge of 80's and 90's music!

Keeping Up with Upham - Interesting information and "how to" information on living green, promoting saving our ecology, saving endangered animal species, living better, and promoting understanding of others, all with a Maine "mountain-man" philosophy!

Country Barn - Kristie Doyle plays something old, something new in the world of country music that everyone agrees is so easy to listen to. Co-host "Uncle Ed" adds a bit of humor and Southern yarns...he loves to spin. Even people who don't care for country music tell us that they love Country Barn programs!

Mystery Train - Bob Reichers has a unique program featuring very rare tracks, unreleased tracks and albums, studio sessions, and many albums not even released in the U.S.A.. These are songs not heard on virtually any other radio station. You may listen to memorable Mystery Train rebroadcasts of 5 seasons on "Mystery Train - The Archives".

Gary Nelson's Oldies Partry - Another veteran New England broadcaster who really loves the 50's and early 60's oldies rock and spices things up with some hilarious comments on the music, artists and beating up on his station manager. Nothing is spared on this show....everything is fair game!

The Dust Bin - A usually whacked out variation of Red Bud Ramble with Dusty Doug and Blizzard Bob. These guys play absolutely anything they want from Waltzing Matilda to Zombi's! to polka, to chem glamour rock...you name it, it's here!!

Red Bud Ramble - The VERY best in traditional bluegrass with insights on artists, song origins, and a huge knowlegde base on anything that is bluegrass. Every so often Erol Arsenault, comes by to deliver an awesome "Cape Breton Version" with tons of Cape Breton folk music!

Talk-in-USA - Co-hosts Kevin Crocker and Tom Zimmerman really do their homework on issues such as business, the global economy, the political issues of the day, the ecology, and other items of social and economic relevance. We do welcome opposing views!

Centered on Seniors - Host Janice Major presents a timely program on anything important to do with our senior citizens and their families. Each program features very interesting local guests who do the best for our seniors, and provide valuable community referrals for our seniors!

Dick Robinson's Music By The Sea - A musical treat featuring big bands, artists from the 40's, 50's and today, and lots of interesting conversation between Dick and the artists, the composers, and Arrangers.

Over The Road - Alan Freedman presnts a unique musical experience with Maine based musical artists, or Maine-related artists. The programs features great conversation, Maine artists musical tracks, and a wonderful listening treat!

Sports Vortex - Co-hosts Jeff and Matty give you the scoop on local, regional, and national sports from their perspective. The program features sports phone chats and interviews with some of the most reveered sports heroes of the past and today!

Into Tomorrow - Dave Graveline and crew present the very latest in technology advances and advances about to break, interesting "Techie" experts and manufacturers. Always check Into Tomorrow first for the all the news on the Information Technology scene.
